

Recipient, First Place Award of Distinction, 2006, Modular Building Institute

- Design Build campus
- 46,625 square feet
- 30 classrooms
- 2 labs, media center, kitchen
- Multipurpose room
- Administrative center
- Play area, play courts

Building Outside the Box

Chandler Traditional Academy
Freedom Campus
6040 S. Joslyn Lane, Gilbert, Arizona

The Chandler School District, the fastest-growing district in the Phoenix metro area, requires schools at an unprecedented rate.

The District's second Academy, Freedom campus, anticipated demand and was designed at

46,000 square feet to accommodate 700 students. The K-6 school opened for the 2005 school year in Shamrock Estates, Gilbert.

To accommodate their time schedule, the Design Build delivery method and Modular Technologies'

accelerated construction process was used. Teachers and staff were preparing for children in a relaxed environment 15 days ahead of schedule. Using "traditional" construction, the process would have taken 14-18 months.
